

eCommerce Services

CREATE A FULLY-FEATURED ECOMMERCE STORE

Let the eCommerce services feel like a breeze with state-of-the-art development, maintenance and migration processes. Designed for the convenience of non-technical users, marketers and eCommerce managers who can relax as our in-house certified experts take charge and work to improve the ROI of your organization.

Our Services

-  **Strategy:** Define sales cycle, optimize your checkout process, decrease cart abandonment, and create a roadmap for your eCommerce business strategy
-  **UI/UX:** Design and develop robust, responsive, and user-friendly websites in Shopify, WooCommerce or Magento to engage visitors, accelerate sales, and boost your ROI
-  **Integration:** Leverage unmatched capabilities in your eCommerce store by linking it with inventory management, CRM, marketing automation, payment gateways, and fulfilment solutions
-  **Migration:** Seamlessly migrate your eCommerce store to technologies like WooCommerce, Shopify, Magento or upgrade your store to offer a better shopping experience
-  **Optimization:** Augment your online store by applying the necessary navigation, speed, and search techniques to ensure an impeccable store experience to the users
-  **Maintenance:** Ensure flawless functioning of your website with data security and regular updates across different eCommerce platforms

“ Wow!! The website looks great! I am very impressed with your work and really happy that we made the choice to come to you!!!

Erin Oberfeld
CEO
Kornferry

“ I've been working with Grazitti for about six months now and don't really know how I was getting by without them. They've become an extension of our team and provide quality work every time.”

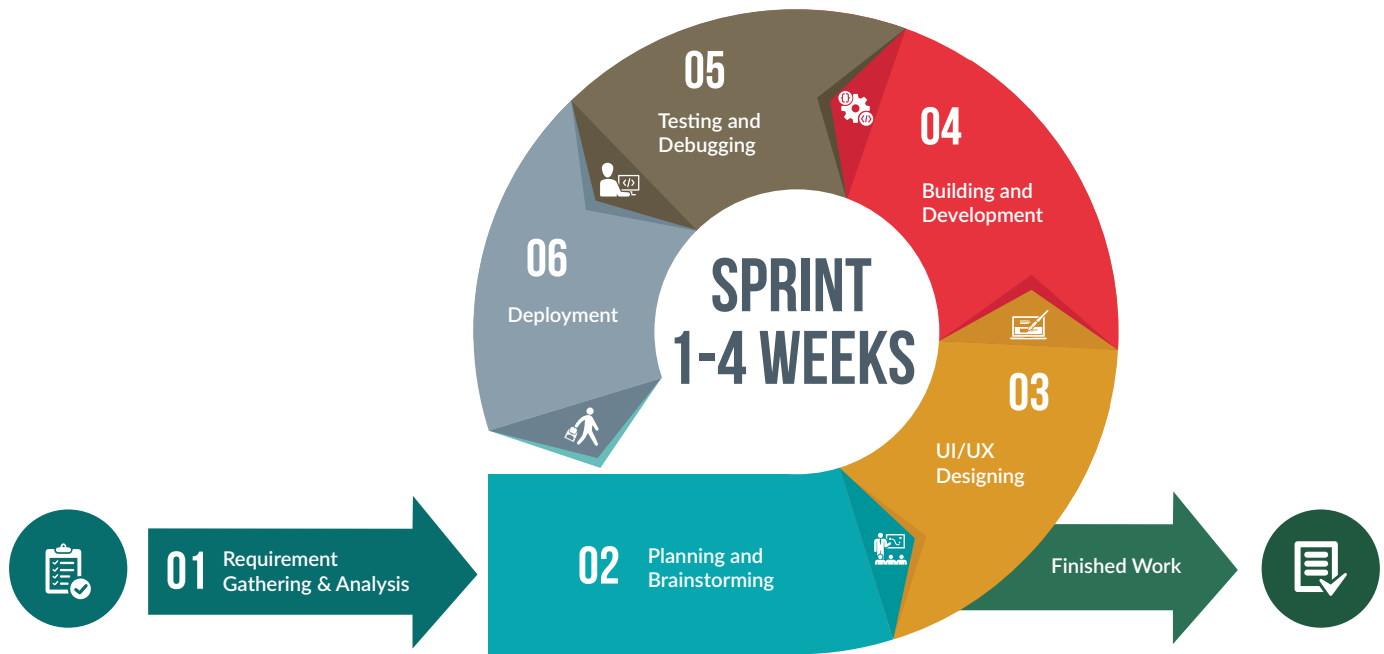

Steven Johnson
Digital Marketing Manager
Roark

“ I worked with about a dozen other developers before I found Grazitti. They are incredibly thorough and do quality work, the communication and task management has been perfectly clear and organized.

Nathan Philips
VP of Marketing, Old Mill Bricks
