

Streamline Business Operations With Project Management Services

PREPARE CLIENTS, TEAMS, AND LEADERSHIP FOR SUCCESS

Enterprises today must be resilient to plan, execute, and coordinate projects on time and within budget.

From conceptualization to completion, it is essential to identify tasks, define how to achieve goals, and quantify the needed resources. To keep an eye on all these, availing of professional project management services is decisive.

We, at Grazitti Interactive, specialize in providing bespoke services tailored to every client's and project's specific requirements.

Project Planning

- Establish the scope
- Track interrelated variables & resources
- Schedule and budget from the beginning
- Maintain active communication to enhance productivity and work quality

Our Process for Project Management-as-a-Service

We follow a simple yet effective project management process to deliver results aligned with your business goals. Our process includes:

- **Planning:** Define your project's scope, create the plan, set the budget, and describe roles and responsibilities.

Resource Management

- Understand stakeholder's expectations
- Recognize the risks associated with projects
- Ensure adequate resource usage to improve your bottom line

Timeline Monitoring

- Monitor the project progress to stay on schedule
- Review plans to reduce risks

- **Monitoring:** Monitor the project's progress by tracking efforts and costs, ensuring adherence to the plan, and recognizing disruptions.
- **Closure:** Review project deliverables, approve project outcomes, and ensure documenting project learning.
- **Maintenance:** Ensure the quality remains good after the closure stage to determine the project's long-term success.

Use Cases for Project Management

Streamlining Marketo & Wrike Operations for Better Project Management

- Crafted personalized technical documentation for smooth project implementation.
- Helped the customer define what work could be delivered and how that work would be achieved.
- Helped the customer keep issue tickets updated in real-time in Wrike to keep track of work progress and organize project tasks effectively.
